Dear John,

Giving Tuesday is a day for giving back to the community. You can do that by supporting Non Toxic Oregon.

Far too often, children are exposed to toxic pesticides that international health experts have linked to childhood neurological damage, IQ loss, behavioral problems and even pediatric cancers, simply from playing in parks and playgrounds.

You can help us solve this problem, by [supporting our Non Toxic Oregon Project](#) now. **For the month of December, Mountain Rose Herbs is matching donations to Beyond Toxics - dollar for dollar - up to \$10,000.** Together, we can protect children and families, showcase beautiful parks and playing fields and prevent pesticides from poisoning our water and soil.

See "[Non Toxic Oregon - A Beyond Toxics Project](#)," our newest video to learn what we're doing about these threats to our children.

We are already working with parks staff in the cities of Eugene, Springfield, Ashland and Talent - plus Lane County - to **go non-toxic!** More communities in counties like Clackamas, Jackson and Josephine are hoping to join the project. **Donors like you are crucial to making this program a long-term success.**

Please **donate now** to double the impact of your gift and provide our children and our communities with safe, healthy public spaces. **Your gift today will count towards our Giving Tuesday fundraiser.**

Knowing that you are standing with us in this fight and supporting the work of Beyond Toxics makes us ever stronger in our drive to implement non-toxic approaches. Ending cancer-causing and brain-damaging industrial chemical pollution in air, water and soil is the best way to ensure a healthy world for future generations.

JOIN Beyond Toxics!

Thank you for caring about environmental health and justice! We appreciate you!

Sincerely,

Lisa Arkin, Executive Director
